

## 2-Port Wall Outlet USB Charging Faceplate

---

Transform your wall outlet faceplate to a USB charger to charge any USB device

**Overview:**

Aluratek's 2-Port Wall Outlet USB Charging Faceplate is a great way to charge your smartphone, tablet or any USB device right from any electrical plug without losing an outlet.

Installation is quick and easy with no batteries, no wiring, no electricians and no fuss. The USB charging faceplate simply snaps into place around the wall outlet and draws power right from the outlet. The faceplate is USB surge protected to prevent a sudden spike in current that might damage your device.

**Features:**

- Transform your wall outlet faceplate to a USB charger
- Quick and easy installation - no batteries, now wires, no fuss
- Compatible with any single gang rocker outlet
- USB surge safe - keeps your devices safe from power spikes
- Sleek and practical design allows you to charge any USB device right from your outlet without losing an outlet
- USB charging faceplate snaps right into place - prongs draw power right from the outlet!
- USB OUTPUT: 5V / 3.1A
- Limited 1 Year Warranty

**Installation in Seconds**

No batteries, no wires, no electricians, no fuss. Installation is quick and easy. The USB charger faceplate snaps right into place. The prongs draw power right from the outlet!

**Convenient Charging**

The sleek and practical design allows you to charge any USB device right from your outlet! Leave your outlets free to use. Works with any single gang rocker outlet.

**STEP 1**

Shut off the power and remove the faceplate from the outlet

**STEP 2**

Insert the prongs around the outlet and the faceplate charger will snap into place

**STEP 3**

Replace the faceplate screws and you are ready to charge!
