

# NEXT LEVEL RACING® CHALLENGER SIMULATOR COCKPIT

Challenge your opponents

Bring the race track to your home with the Next level Racing® Challenger Simulator Cockpit. The Challenger cockpit is the perfect solution to mount your steering wheel, pedals and even shifter in an authentic racing position to give you a true race car driving experience from the comfort of your home. The minimalistic design of the Challenger cockpit provides you with a rigid and realistic racing experience without a huge footprint.

The optional Next Level Racing® Lockable Castor Wheels are also compatible with the Challenger cockpit. This allows you to easily roll the cockpit into position, lock the wheels when racing and easily store away after use.

Optional Accessories available:

- Next Level Racing® Lockable Castor Wheels
- Next Level Racing® Floor Mat
- Next Level Racing® Free Standing Single and Triple Monitor Stands

- Market leading box size is perfect for retail and more than 520 units in 40ft container
- Patent pending design provides rigid support for steering wheel, shifter and pedals whilst providing minimal footprint
- Adjustable wheel height /angle and adjustable pedal distance/ angle
- **Seat slider included** allowing quick and easy adjustment of seat for different sized users
- **Gear shifter support included** can be added on left or right side
- **Seat is angle adjustable** and seat design allows user up to 150kg or 330lbs to race comfortably
- Position of centre pole designed not to interfere with driving, braking or serious heel and toe driving
- Height adjustable feet included that also protect your floor
- Compatible with all major wheel and pedals. Pre-drilled for Logitech®, Thrustmaster®, Fanatec®,
- Premium laser cut, robot welded carbon steel in Matte Black
