AIR MOUSE[®]

PRESENTER

Business Presentations

Whether you're in the boardroom or off-site making a new business proposal, the Air Mouse[®] Presenter supplies everything you need to give powerful presentations, plus gyroscopic handheld mouse control.

Classroom Instruction

Use Air Mouse[®] Presenter in the classroom with projectors, digital displays and digital whiteboards. Moving freely around the room, control all aspects of your lecture slides, multimedia and more.

Complete Control

The Air Mouse[®] Presenter is much more than just a presentation remote. It's also an Air Mouse[®] giving you gyroscopic control of your multimedia content, Internet sessions and office applications from up to 75' away.

Slide Controls

Change PowerPoint[®] or Keynote[®] presentation slides with the click of a button.

Green Laser Pointer

Use Presenter's bright green laser pointer to focus all eyes on the points that really matter.

Cursor Control

Use Presenter as an Air Mouse[®], controlling the cursor with simple hand gestures.

Up to 75-Foot Range

Work the room using Air Mouse[®] Presenter's 75-foot 2.4 GHz wireless range.
